

ULYSSES 2.1.1 – RELEASE NOTES

IMPROVEMENTS

- DOCX export now supports changing character spacing and setting highlight colors
- PDF export got an option to enable justification of lines ending with line breaks
- Sheets can also be split at the very beginning or end
- Ulysses for Mac: Splitting sheets now keeps focus in Editor

FIXES

- Solved several interface glitches when browsing backups
- Ulysses for Mac: Tags of heading levels 4-6 are laid out correctly again
- Ulysses for iPad: Tabs are now using the correct width of 4 spaces

- Quite a few minor bugs and crashes are also a thing of the past. Yay!
